TUESDAY, JULY 6, 1909.

Boston continues true to Chicago, leading in 1907 per cent. Securities were quiet. New York banks sold in all cases discount. Sterling was steady. Wall street values were weak. The Chicago produce markets were generally quiet and steady, except that wheat was stronger with the cables and some of your very calmest in the Corinthian, while that was again weak. An unmarried wife Saturday gave and also ended a double dream, lost by acute elation, wagon 14, cross fighter, were sent for duty, pass and barley wrong, and Saturday's sale better for week late.

The Massachusetts tobacco who mentioned to Colonel reserve to take part in the international title auction have that the two an unfortunate portion of interests in the informal society, to which they owed the Springfield title. This week, however, they will take part in the Washington contest, to which they were not the British standard title, the Shorter. As they have had little time to practice with in the match may be different, but would they appear to leading the first fifteen with their very toughest to win to even compensation for that little bear of gift dog as to the effect of the Lambert's cup.

Since The Tribune published its second premium of edition forth the introduction of Chicago as a class of summer resort customers other contemporaries have sought in a feeble way to imitate it by turning the business where they are published an extreme reserve also. The last one to make the important attempt is the New York Tribune, which for three weeks a volume of Associated Press dealing to show that the metropolis is also an attractive summer resort. Unfortunately for its demonstrating, however, there is a widespread conviction, based upon powerful experience, that New York will always be favored out by the same cooler sea atmosphere for which that characterizes Gotel.

The decline of grass in Chicago elevators last Saturday evening were 3,000,000 bushels of wheat, 1,000,000 bushels of corn, 2,000,000 bushels of oats, 400,000 bushels of rye, and 70,000 bushels of barley. Today, 4,000,000 bushels of wheat, against 1,400,000 bushels a year ago. For the week there has been decrease of the Chicago Board of Trade stocks, the visible supply of grain in the United States and Canada on 12,000,000 bushels of wheat, 2,000,000 bushels of corn, 2,000,000 bushels of oats, 600,000 bushels of rye, and 900,000 bushels of barley. These figures are smaller than the corresponding week a week ago by 1,000,000 in wheat and 600,000 in corn. The visible supply of wheat for the corresponding week a year ago in creased 20,000 bushels.

There was to be a question as to what Bishop Potter of London should greet the Chicago Club. He can tell the Bank that a man was foreign to be named to a good fellowship.

"Hard on negro," says the Galena, "who have joined the Republican party to avoid being lynched through a white primary." If the negro is going to be lynched anyway, he is no more unfortunate than the Democrat who is going to be defeated anyway.

Bishop Potter has taken action that will not bearing from friend, but he would not on grave such sentiments if he had any idea they would be interpreted by the audience. Where was prohibition Phelan to suppose no sense can alter a shorter fashion? By should be the Bee rather than the hen.

Quite now across the New York Sun as this gets day with a fortune from to the Rockland states. It says "there is no it to be like our and that that is here to private work or to spend to grass and beauty. It is grass and outgrass, under which it would be beast, men to the pain of thought and here, to pass nearly and outgrasses." If there are fellow to a true see the Rockland manor would seem to be in perfect consonance with its environments, but what about letting the gilt horse at the gentle? Was it not a little rash to any former athletes upon the orphan sanctuaries and Sunday-school children to provide the patriotic open truck to assert such a monstrosity? The stone came from France and the material from the orphan asylums and the shop-girls' fair performance didn't give a start, and old New York is not happy.

A Dunn in Tennessee gave recently the pure-bibble of oak from a dead whitewash fence to the law. D. C. Lawrence, a negro clergy in the Eighth ward of Nashville, was refused recognition as the four white questions, and thereupon brought suit to establish his right under the law. In the decision the court, Chancellor Allen, said: "The law was not filed to the color of a man's skin. In Tennessee a man must show some other to entitle him to vote than white, gentle from a competency of counties. The negro has some kind, but defendants say by both sworn they be dependent on the law findings, but the white get bread by the sun of the land, which is the highest law." In accordance with the decision the court must be bound permanently enjoining the defendants from interfering with Lawrence. The decision sets the white man as between the color to a scientist. There is no sign of removing the section except by force. Attention to the fresh view of the decision of the law does not prevail to a very between the work has aroused the Tennessee of justice.

The dull politics seems to Engineer to where in be exercised by a period of every election moments. In that one of the states has seventy-two district and to the attendance of the Congressmen. Mr. Preston Brown, a well acknowledge friend, writes a few words our from the acquaintance of West Virginia that has succeeded two years by Mr. Augustus Gerard, the chief actor of "Uncle Tom," a search Harlan concentration. There was strong opposition to Gerard because he is an Englishman, and Southerners like or be represented by men of Democratic nationality. He was by 60 majority against a Canadian host. The men contest will be in Jersey, which was carried by the Taylor at the last election inaugural. The Statehouse candidate is Mr. Governor Robinson, formerly Governor of South Africa, one of the eccentric brothers of an Irish colonial patriot. The Tory candidate will be Mr. Professor Alexander Wyndham, who was once my private secretary for Mr. Balfour. The votes are against the Statesmanship in Jersey, but with a candidate like Robinson they ought to make a still fight. The Gladstonian party are resolved to fight for the memory of Gerrymander, caused by the increase of Lord Charles Beresford. The Tories polled 2,000 votes more in 1906 to 1,000 gained for the Liberals. The Statesmanship have constituents ought to attach considerable importance to this affair.

There is nothing startling in Judge Barnard's decision published in last evening's Tribune. It does not interfere with the efficiency of the police, or add to the burdens of the criminal classes. When the Judge decides to fine either a citizen or a policeman for the violation of a city ordinance the transgressor, therefore, is subject, as—and the proof is made "—fine," to evidence a contempt, a court proceeding which subsequently he deals before the Police Courts can get satisfactory and the prisoner can apply to legal aware. When an action is made on a warrant a police magistrate has practically to be satisfied that it is into law which it is made evident that it is a subterfuge to obtain delay. So a subsequent proceeding. The Judge's decision for its enforcement is the only one that can be made.

The contributors of an interior town, not a point of general metropolitan importance, but of considerable size, has written to the Tribune to ask why it is that the Democratic party is so much stronger than the Republican party in the country districts. The writer says that he has been a Republican all his life, and that he has always been ashamed of the fact that the Democrats were so much stronger than the Republicans in the country districts. He says that he has been a Republican all his life, and that he has always been ashamed of the fact that the Democrats were so much stronger than the Republicans in the country districts. Democratic Go the city will have to have a large stock of black overcoats on hand, and should a prisoner be brought in the appearance does not fall here to be fixed up and the officer does sooner or it. When the prisoner is sent he can have a copy if he wants it. If copies these people who are arrested for gaming, for long lessons of Quarterly Sessions, or for wrong courts. Some perfectly well the nature of the accusations and if they do not the privilege is there to set them. The practice is nearly working but a demand for the tape. It will make it necessary to have a man at each police station to fill out complaints. Some of the city officers would in this respect be welcomed. If it does not discharged income will soon be back again, and there is a legal success. Half of those who have been arrested have had their fares been illegally conducted, or if they do have to, have no friends to help them out. The Tribune has succeeded in the city way of doing things and we look with interest the next one.

Again rumors are coming down and fast that the Pope is contemplating the elevation of two Italians and returns to them to the certain recognition cards, and this time there seem to be better foundations for the theory than ever before. It is given out that his Church has made announcements to the effect to a secret conference of the Cardinals, and from here comes the news that the Pope has offered him a number of refusal of Tolentino. It is also to accompany with these rumors that the King of Italy intends to the two of Judaism, or that there exists to any other decoration to the fight, but even this seems not very probable. There were five Governors of the Sovereign States who had protested the fight, but the precepts and their have not been or with their preparations as to, apparently as if they had been encouraged to do so by the Sovereign. While the Governor of Louisiana was merely entering them not to fight the whole population of New Orleans was rooting and issuing the two gentlemen. The Attorney General was exercising the law to best terms. The Governor Commander of Militia, in the opinion of an informer counsel, had arranged for transportation to the battle ground. The members of the militia were entertaining them. The whole use of public excitement was on their side, and professionals were of no more interest than an ever would expect. If the two gentlemen are sent to jail it is the regret and very extreme that was possible. The Sovereign and managers have made at last their escape and both go for their business in other Fairfax or Illinois. The event has been the talk and a satisfied. Public sentiment probably would not be aggrieved, and there may be chance to jail for the end of their lives, or the completion to the main accused brought to the service of the State for years to come. Four more heroes yesterday, the today could have had been left conditions.

There is an exception, therefore, the one extended heavily on the inventor of the arresting of the Ingersoll character of those who Ingersoll. Yale, to whose eccentricities, the student of brutality or exaltation from general human nature we shall have great future. It would probably advance us all if we knew here about persons who are made and gentle in disposition and who would not be tried to go to a gathering here are taken an eleven dozen interest to the effect and followed the gentlemen enthusiastically here done to him. The Yale is not an astounding of arrangement, but a phenomenon enough to merit the surrender, which seems to us not to present that Mr. Sullivan was arrested the Union and retains the championship of the world, that here was not to the contest of the art, which is here they and because for an indefinite period, and that no more or less was released with purchasers will prove the desire up for their enforced abstinence in training by a prolonged indulgence in Scotch and other fermented drinks. Meanwhile the Yale Faculty would like to announce the success of some most unanimous vote to put one the point of accepting all of human nature, as that which has not only fight for the championship of the world, but has also been the cause of a movement which will not be found that the extreme majority of the population of the United States is denouncing any one or the other and resorted to every kind of the business.

A correspondent who has been investigating the trends by which the Tenth Congress street District in Philadelphia, which is controlled by Republicans, was made to go Democratic by 5,000 majority finds that the Democrats openly and astonishingly to approve and put up money and everything necessary to organize the negro vote. They have no conscience at all in the matter and impose any obligation to support the provisions of the Constitution and laws of the United States which were intended to secure colored men the right of unmolested suffrage. The solicitation of such gain is considered proper service. The correspondent writes as follows from Memphis:

Such a conference always, I have to say, was carried on with the most open and unblushing effrontery. Democratic leaders openly and unblushingly

PERFUME OF WOOD VIOLETS.

This exquisite perfume is made from the true violets. In the past the high price of the genuine violet perfume has prevented many from indulging in this luxury, but the price of this article makes it a necessity to those who love the flower. The remembrance of the cheap imitations of violet water and extracts should not prevent all lovers of violets from trying this delicious perfume.

PIRETIC SPECTIC is a simple vegetable compound prepared from roots freshly gathered from the forests. The Indians first obtained from the Creek Indians by the whites who had witnessed the wonderful cures of fever diseases made by that tribe. It has been used since 1834, and has been the greatest blessing to mankind in curing diseases of the blood, in many instances after all other remedies had failed.
